## So, Why The PEAC SYSTEM®?

1. **Accuracy-** focused on the inner self, the one you have to manage and train. And the one they hide from you in order to land that important position!
2. **Stability-** Nearly three decades of steady growth in large and small companies, where we have curbed turnover by as much as 75% while increasing productivity! Now worldwide, from USA to India, to Australia, Europe and back to Canada!
3. **Professionally, live, one on one Consulting Session©** with any PEAC® evaluation you run that may bring questions, whether how to train and manage a profile, or questions about the evaluation, itself. There is a small fee added for this feature. No one else comes close in the industry specific knowledge as our Readers© come from the sales and services industry.
4. **A scoring system you can rely on** to give you a statistical reference from which to base your hiring decision. This gives you an idea of what to expect when you decide to make that next hire, or... not... The computer will generate a RAW score. From that you can add up to ten points for previous experience in your industry, verified by references and role playing. This will produce an effective score that is more desirable. But, unproven, the RAW score stands.
5. **Online and automated.** You will receive a coded key to submit on our form to pull up the graph and resultant extras. This can happen quickly, via email, depending on your system condition and the internet with its own fallibilities.
